

CVIE is in the better ergonomic products & better installation services business.

Ergonomics: “The applied science of equipment design to maximize productivity by reducing physical effort & discomfort.”

Founded in 1998, at **CVIE** we believe in providing the best ergonomic solutions for people in the modern environment & in providing the simplest installation/application methods for those solutions. **CVIE** provides the superior products people need for improved wellbeing at fair, affordable prices. We partner with you, your team or your government officials to improve the lives of the people in your family, your company, your community or your nation. **CVIE** concentrates on efficiency, productivity, fiscal health, but most importantly, *the physical health* of the people living & working around you.

CVIE’s Core Business Competencies

Ergonomic Consulting / Workstation Evaluation / Living Condition Evaluation

Equipment / Furniture / Living Spaces

Ergonomic Products Designed by Certified Ergonomists

CVIE’s Industry Purpose - Why Does CVIE Exist?

**“Winner”- GMSDC 2007 Supplier of the Year – Class 1
“GMSDC Georgia Plus Member”**

For over a decade, **CVIE** has been addressing workplace inadequacies that cost American companies & government agencies \$20 Billion annually in direct costs & over \$100 Billion in indirect costs annually. Injuries associated with the use of computers & associated equipment account for 33% of all workplace injuries. These injuries are better known as *“repetitive stress injuries”*.

CVIE has been identifying the causes of these types of injuries & implementing the best, most cost effective solutions to eliminate them. Among our customers, our efforts have reduced injury claims from an average of 1 out of 3 computer users filing claims to an average of 1 out of 10! That is improvement!

CVIE’s Workplace Solutions

We proudly continue that effort today, striving to reduce costs, to reduce injuries & to make a better, safer, less costly place for people to work. **CVIE** has the experience, the knowhow & the network of skilled partners to improve the fiscal health of your enterprise & the physical health of you people.

RSAM - CVIE’s New “Livingplace” Solutions

Recently **CVIE** applied the expertise gained improving people’s workplaces to also improving certain people’s living places. The Indonesian tsunami, the Haitian earthquake & the never ending tragedies that occur all around the planet inspired us & motivated us to re-examine how one of the most basic human needs - shelter - is dealt with in dire circumstance. **RSAM** is the result - **R**apid **S**tructure **A**ssembly **M**odules/**M**ethod - that redefines what “temporary” shelter should be & can be. *Maximize productivity by reducing physical effort & discomfort* - that’s the science of ergonomics. And if ever there were people in need of maximized productivity & reduced physical effort & discomfort, it is anyone suffering because of a natural or manmade disaster. **RSAM** is **CVIE**’s solution to an entirely new sort of *“repetitive stress injuries.”*
